## **DETAILED ACTION**

## Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claim1-215 and 218-347 drawn to a process for the preparation of an N-(phosphonmethyl)glycine product, classified in class 562, subclass 17.
- II. Claims 216 and 217, drawn to a process for the removal of water from an aqueous solution comprising N-(phosphonmethyl) glycine, classified in class 159, subclass 1+.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I can be used with a different process for the collection of product. For example the aqueous solution may be evaporated at elevated temperature at atmospheric pressure. The invention of group II can similarly be used with an aqueous solution comprising N-(phosophonomethyl)glycine produced by a different process than the instant one. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul A. Zucker whose telephone number is 703-306-0512. The examiner can normally be reached on Monday-Friday 7:00-3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Geist can be reached on 703-308-1701. The fax phone numbers for the organization where this application or proceeding is assigned are 703-308-4556 for regular communications and 703-308-4556 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1235.

PAZ March 11, 2002

PAUL J. KILLOS 'PRIMARY EXAMINER
